

# LARGE ORGANISATION NETWORK GROUP

INVESTORS IN PEOPLE  
Scotland

## *Learning and sharing good practice*

At Investors in People Scotland we understand that large organisations face a different set of challenges.

That's why we introduced a quarterly network group for large organisations working with the Investors in People framework.

At LONG you'll meet and learn from representatives from large organisations across Scotland, explore fresh ideas from academic experts and industry leaders and take part in lively and challenging debate.

LONG was created for you and a steering group of industry peers ensures sessions are topical, engaging and of real benefit to attendees. But don't just take our word for it...

-  Explore topics in themed sessions
-  Learn from experts and leaders
-  Debate real issues
-  Share your experience with peers

*“Very useful - especially hearing about the experiences of other organisations.”*

*“LONG is a vital forum for harnessing positive thinking in the Standard's aim to release and improve potential among large organisations.”*

*“An excellent platform for organisations to come together and share experience.”*

*“Very beneficial.”*
